

# Computing Enrichment

At Leopold Primary School, we enhance our Computing curriculum in a variety of fun and engaging ways. We provide specialist support, where children have lessons taught by well-trained Purple mash teachers, who provide challenging and engaging sessions for all year groups. In addition to this, we also have enhancing technologies in school such as iPads, cameras and interactive whiteboards to ensure that our children get the most from our computing curriculum.

Leopold Primary School has subscribed to many excellent programmes to enhance computing skills and further learning at home via Microsoft Teams, Times Table Rock Stars, purple mash, ClassDojo and Bug Club.

Microsoft Teams

ClassDojo

The pupils at Leopold Primary school use our innovative technology to support them with their learning, be it for research or taking pictures of their learning, filming their role plays or poetry performances.
